

SENECA UKCA Statement

The UKCA (UK Conformity Assessment) mark applies to most products placed on the market in the United Kingdom (England, Wales, Scotland, Northern Ireland) that were previously subject to the European Union CE mark.

The regulatory requirements that SENECA products must meet in order to be placed on this market, including the conformity assessment processes and standards used, are essentially the same as for CE marking. Therefore, the circumstances under which SENECA can claim the declaration of conformity for the UKCA mark are the same as for the CE mark.

According to the guidance provided by the UK government, SENECA may use the CE marking until January 1, 2023. From January 1, 2023, where applicable, the UKCA mark will be affixed directly to the product, on the packaging or on the labelling. Exceptions may be where this is not feasible or not required in terms of production, logistics, commercial processes, or labeling and packaging systems.

Besides covering most products that previously required CE marking, UKCA compliance does not affect the performance or requirement of products in other markets. In addition, previously declared product performance and compliance will not change.

Further details on UKCA marking requirements are available at <https://www.gov.uk/guidance/using-the-ukca-marking>
