

## REACH AND ROHS DECLARATION

SENECA s.r.l. ensures that the electronic products manufactured at its plants and supplied to its customers meet the current regulations in force regarding the protection of the health of the operators involved and the environment.

### REACH (Registration, Evaluation, Authorisation, Restriction of Chemicals)

In accordance with REACH 1907/2006/EC Regulation, products manufactured at SENECA s.r.l. plants can be classified as articles that do not release, under normal or reasonably foreseeable conditions of use, any substance that is dangerous neither for human health nor for the environment.

SENECA s.r.l. declares that, based on its knowledge and the information received from its suppliers, the products sold do not contain any of the substances identified as extremely worrying (SVHC, Substances of Very High Concern) or included in Annex XIV of the REACH Regulation in a percentage by weight greater than 0.1%.

The list of SVHC substances or "Candidate List" is periodically updated by ECHA (European Chemical Agency) and is available at <https://echa.europa.eu/scip-database>.

We will keep you updated in the future, if our products contain substances not currently included in the list above in quantities exceeding 0.1% w/w.

### RoHS Directive (Restriction of Hazardous Substances)

With reference to Directive 2011/65/EU (RoHS2) and its updated Delegate Directive 2015/863/EU (RoHS3) on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS) Seneca S.r.l. declares that its products comply with the limits set out in Annex II possibly taking advantage of the exemptions listed in Annex III and IV of that directive (lead in copper alloys).

The substances listed in Annex II with the imposed limits are as follows:

- Lead (Pb): < 1000 ppm
- Mercury (Hg): < 1000 ppm
- Cadmium (Cd): < 100 ppm
- Hexavalent chromium (Cr VI) < 1000 ppm
- Polybrominated biphenyls (PBB): < 1000 ppm
- Polybrominated diphenyl ethers (PBDE): < 1000 ppm
- Bis(2-ethylhexyl) phthalate (DEHP): < 1000 ppm
- Benzibutyl phthalate (BBP): < 1000 ppm
- Dibutylphthalate (DBP): < 1000 ppm
- Diisobutylphthalate (DIBP): < 1000 ppm

Since the REACH regulation and the RoHS directive, with the related lists of restricted substances, are updated frequently, SENECA s.r.l. follows their evolution and implementation and constantly monitors any changes.
