

## California Proposition 65 Statement

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)

Based on the information currently available, supplier declarations and the intended industrial and professional use of the products, SENECA S.r.l. has no reason to believe that the supplied products require a warning under California Proposition 65.

The evaluation has been performed taking into account normal and reasonably foreseeable conditions of use, handling and installation.

The company does not intentionally add substances listed under California Proposition 65 to its products. However, trace amounts of listed substances may be present as impurities in components or materials supplied by third parties.

Should new regulatory updates, changes in the supply chain or different use scenarios require a reassessment, appropriate information will be provided.
