

EU DECLARATION OF CONFORMITY

Regulation (EU) 2025/40 on packaging and packaging waste (PPWR) — Article 39

Declaration

This declaration of conformity is issued under the sole responsibility of SENECA s.r.l. The packaging identified above is in conformity with the requirements of Regulation (EU) 2025/40 applicable at the date of issue, according to the dates of application set out in the Regulation.

In particular, on the basis of the declarations of conformity, technical data sheets and documentation received from the suppliers of packaging and packaging materials:

- the sum of the concentration levels of lead, cadmium, mercury and hexavalent chromium does not exceed the cumulative limit of 100 mg/kg laid down in Article 5(4); these metals are not intentionally added;
- the materials used comply with the applicable requirements of Regulation (EC) No 1907/2006 (REACH) as amended;
- the packaging is not intended for food contact: the PFAS limits set out in Article 5(5) are therefore not applicable. To the best of the manufacturer's knowledge, no PFAS are intentionally added;
- the packaging is designed to reduce weight and volume to the minimum necessary to ensure its functionality (Article 10) and uses mono-materials compatible with the existing recycling streams;
- the packaging does not fall within the categories of reusable or compostable packaging, or packaging subject to deposit and return systems.

The requirements of Articles 6 (design for recycling), 7 (minimum recycled content), 8 (bio-based feedstock) and 12 (harmonised labelling) are subject to later dates of application and to delegated and implementing acts not yet adopted; SENECA s.r.l. will comply within the respective regulatory deadlines.

Conformity assessment and documentation

The conformity assessment is carried out in accordance with the internal production control procedure (Module A) set out in Article 38 and Annex VII to the Regulation. The technical documentation is drawn up and kept by SENECA s.r.l. and is held at the disposal of the market surveillance authorities for the periods laid down in Article 15.

At the date of issue no harmonised standards or common specifications applicable to the packaging concerned have been published. SENECA s.r.l. also fulfils the extended producer responsibility obligations according to the applicable dates in the markets where it places its packaged products.

Validity

This declaration refers to the packaging as supplied by SENECA s.r.l. and does not cover modifications, substitutions or contamination occurring after delivery. It is valid from the date of issue and is updated in the event of relevant regulatory changes, changes of materials or suppliers, or updates to the information provided by them. Further supporting documentation is available on request.
